

Tests of one-size panty hose find snags, bags a setback

OTTAWA (CP) — Pantyhose snags and bags are a feature of most of the 16 brands of one-size pantyhose tested by the Consumers' Association of Canada.

Only one brand—L'EGGS—lived up to its claim of fitting

all figure sizes comfortably, the association reported yesterday.

However, the brand didn't rate highly for touch and appearance in the wear trials.

Cheaper brands will perform favorably on certain fig-

ure types, CAC says. Found acceptable for medium and large figure types were Whisper, Simpsons-Scars, Petite Belle, Young Flair and Maybelle in that order.

Women with long legs won't go far wrong with Secret, Fair Set and Zellers, while women with short legs can comfortably wear Bonimart and The Very Thing.

Even, Chorine, Loblaws and Jewel were considered poorer in fit and comfort while Miracle Mart brand was found to be unacceptable for all sizes.
